

## Prelert Signs Reseller Agreement With Top Data Analytics Solutions Provider LC Systems

FRAMINGHAM, Mass. – July 16, 2013 – [Prelert](#), the first company to provide 100 percent self-learning [predictive analytics solutions](#) to address the volumes of data generated by today’s IT systems, today announced it has signed a reseller agreement with [LC Systems](#), a leading provider of data analytics solutions. Headquartered in Switzerland, LC Systems will offer Prelert’s [Anomaly Detective](#) for Splunk Enterprise environments to customers across Europe. Anomaly Detective uses machine intelligence assistance to locate problematic behavior changes hidden in huge volumes of operations data.

“Our partnership with Prelert is a strategic step that will enhance our existing data analytics portfolio with innovative technologies,” said Rolf Niederer, CEO at LC Systems. “LC Systems customers will benefit from both our data analytics knowledge and Prelert’s ability to identify causes for problems in applications and networks within a very short time.”

“LC Systems’ exclusive focus on solutions for data analytics and Splunk environments makes them a perfect reseller partner,” said Mark Jaffe, CEO of Prelert. “Their 20-plus years of experience provide the knowledge and support to enable customers to maximize our product and locate problems in operations data before they impact business processes and performance.”

[Anomaly Detective](#) is easily downloadable software that installs in minutes as a tightly integrated application for Splunk Enterprise. Anomaly Detective is 100 percent self-learning and requires minimal configuration. It identifies developing issues and provides detailed diagnostic data that enables IT experts to avoid problems or diagnose them as much as 90 percent faster than previously possible.

### About LC Systems

An innovative Swiss company operating on a global scale, LC Systems has for more than 20 years offered high-quality data center services along with comprehensive, well-established services in data analytics. The company services every stage in the value chain: from strategic consulting, to implementation and advanced development, to managed services. LC Systems employs more than 100 data center and data analytics experts at its locations in Switzerland, Germany and Austria. For more information about LC Systems, visit <http://www.lcsystems.ch/>.

### About Prelert

The complex IT environments behind today’s online applications and services generate more operations management data than a human can structure or analyze. Prelert is the first company to solve this problem by providing 100 percent self-learning predictive analytics solutions that augment IT expertise with machine intelligence assistance to dramatically improve IT operations. For more information, visit [www.prelert.com](http://www.prelert.com).
